## JAPANESE PLAN FOR OWN POLICE AMUSING TO ROSE

Sheriff Wants to Know Where They Will Get Badges, and if They'll Have Own Jail

Sheriff Rose when asked today for an opinion on the Japanese mass meeting which is to be held tonight for the purpose of appointing a police force of their own merely laughed. "What kind of badges are they going to wear?" he asked. "Are they going to have a badge of their own and a jail of their own?" "Probably they will come up and get you to make them deputy sheriffs," someone said laughingly. "They will have a fine chance!" answered Rose.

Rose said today he supposed Fred Makino would preside at the meeting and Fred Makino would appoint the police. He also insinuated that Makino's idea in organizing a police force was to get a set of men who will let him violate the traffic laws whenever he wants to.

"I am certain my men will not give him any privilege that any other citizen is not entitled to," said Rose, "in spite of all his threats."

Expect Large Attendance. The Japanese Association announces that a large number of Japanese are expected at the mass meeting this evening at the Japanese school at Nuuanu and Vineyard streets.

The members of the association have outlined a plan of campaign which will be voted upon this evening. First the members will be asked to favor a plan to divide the city into districts and appoint an officer to look after each district. Then the committee will ask for subscriptions to support the Japanese officers.

The Japanese have proposed that members secure badges from the police in order to be recognized in case of trouble. The association will also condemn the police for their inactivity in the past and will ask for their cooperation in establishing a better system of protection for the Japanese.

## Niles Not To Be Seen Here At Carnival

Charles F. Niles, the famous aviator, who will not give exhibition flights in Honolulu.

Niles, the aviator, will not fly in Honolulu for the Carnival. The Board of Carnival Directors today notified J. Walter Doyle, business agent here for Niles, that they did not feel they could afford to underwrite the guarantee of \$3500 Niles asks for a series of flights. Charles F. Niles is one of the three best known and most daring American aviators. Until recently he has been flying in San Francisco for the Panama-Pacific International Exposition, giving day and night exhibitions of looping the loop and pin-wheel plunges.

Last week he passed through Honolulu bound for the Orient, where he is booked for six engagements, one of them before the Japanese emperor. The absence of a suitable aviation field here and the difficulty of collecting any admission charges to cover the cost of the large guarantee asked were the determining factors in the decision of the directors, although they were aware that, in any event, they must first obtain the consent of Governor Pinkham.

A territorial statute forbids all flights except by army aviators, or those employed in government service.
